
DRAŽIĆ MARTINA

Junior Frontend Developer

Email: dr.martinadrazic@gmail.com

Phone: +381644888953

Currently live in: Belgrade, Serbia

Profile

Frontend developer with background in medical biochemistry. Found a passion in web programming and I want to use it in the future to improve both biochemistry and world. Always strive for perfection and knowledge.

Experience

Software developer, Red-Black Tree, Belgrade — October 2016 - Present

When joined RBT company I was working on small apps and games using "Vanilla" JS. Currently I'm working on large scale AngularJS application for managing music distribution and it's legal concerns. My main responsibilities are around creating new features for the platform, implementing UI/UX solutions as well as writing business logic in AngularJS. Tech stack contains Ruby on Rails and MongoDB.

Biochemist, Military Medical Academy, Belgrade — June 2015 - April 2016

Internship in the laboratory for Medical Biochemistry, Toxicology and Sanitary Chemistry.

Intern biochemist, Institute of Public Health, Belgrade — June 2014

2-week internship program in laboratories controlling food, water and air safety.

Intern biochemist, Clinical center, Belgrade — February 2014

2-week internship program at the Institute for Cardiovascular diseases.

Education

MSc. Pharmacy - Medical biochemist — University of Belgrade — March 2015

GPA: 8.22/10

Skills

HTML, CSS, Bootstrap, Sass, JavaScript, AngularJS, jQuery, Object-oriented paradigm, MongoDB, Git, JIRA
